This document serves as the official list for copyright registration and trademark preparation, covering all proprietary, coined, or systematised terms, frameworks, and conceptual phrases.

◆ Book & Canon Titles

- * *Compassion Leakage & Energy Depletion* (CLED)
- * *Markets of Misery* (forthcoming)
- * *When the Mirror Lies* (forthcoming)
- * *Parenting Has Nothing To Do With Children* (forthcoming)
- * *Compassion Economics* (foundational theory and canon title)
- * *The Compassion Economics Questionnaire (CEQ)*
- * *Compassion Economics Canon*
- * *Compassion Replenishment Series*

◆ Brand & Digital Assets

- * **AvoidLeakage** (Brand Name)
- * **AvoidLeakage.com** (Digital Asset/URL)

◆ Core Concepts & Frameworks

- * **Compassion Leakage** – The gradual, often unnoticed loss of emotional availability through sustained relational, cognitive, and moral overload.
- * **Energy Depletion** – The physiological and psychological exhaustion resulting from chronic compassion expenditure.

- * **Compassion Economics** – The study of compassion as a quantifiable human resource and socio-economic currency.
- * **Compassion Quotient (CQ)** – A measurable index of emotional stewardship and empathic sustainability.
- * **Compassion Capital** – Accumulated compassionate capacity within individuals, teams, or societies.
- * **Compassion Bankruptcy** – The total depletion of empathy due to systemic or personal overextension.
- * **Compassion Poverty** – Chronic under-supply of compassion within an environment or culture.
- * **Compassion Drainage** – Accelerated leakage of emotional energy through digital or institutional channels.
- * **Compassion Stewardship** – Intentional cultivation and protection of one's compassionate resources.
- * **Compassion Commons** – The shared social and moral environment that safeguards collective empathy.
- * **Compassion Liquidity** – The flow of compassion once externalised into social, political, or digital exchange.
- * **Compassion Extraction** – Structural or corporate mechanisms that convert emotional energy into profit or performance metrics.
- * **Compassion Debt** – Accumulated emotional imbalance caused by giving beyond replenishment.
- * **Compassion Inflation** – Dilution of empathy through overexposure or performative care.
- * **Compassion Renewal Cycle** – The rhythm of depletion, awareness, restoration, and sustained presence.
- * **Compassion Credit Unit (CCU)** – A conceptual metric representing a standardised unit of compassionate output or impact.
- * **Quantum of Human Suffering** – A conceptual metric for the measurable impact of suffering within a system.
- * **Impact over Intent Metric** – The principle that **Compassion Credit Units** and the **Quantum of Human Suffering** form metrics for the **IMPACT, not INTENT**, as measuring intent is impossible and immoral.
- * **A Better Response** – The practice and goal of applying intentionality to create more constructive outcomes, central to compassion stewardship.

◆ Applied Frameworks & Practices

* **The Five Pillars of Compassion Replenishment** *

1. **Embodied Presence**
2. **Cultural Narrative Restructuring**
3. **Dynamic Integrity Practice**
4. **Relational Environment Design**
5. **Intentional Response Latency**

* **Response Latency** – The deliberate creation of space between stimulus and response to restore compassion integrity.

* **Presence Pause** – A micro-practice for interrupting automaticity and re-centring attention.

* **Dynamic Integrity** – The living alignment between personal values, energy, and relational authenticity.

* **Relational Environment Design** – Intentional structuring of one's physical, digital, and social settings to preserve compassion.

* **Cultural Narrative Restructuring** – Revising inherited or collective stories that glorify self-sacrifice and emotional depletion.

* **Embodied Presence** – Reconnecting with the sensory and physiological self as a foundation for compassion.

* **Compassion Energy Audit** – Reflective self-assessment of how, where, and to whom compassion is expended.

* **Compassion Ledger** – A metaphorical tool for balancing emotional income and expenditure.

* **Time Debt of Compassion (Chronos/Kairos Principle)** – The tension between measured and lived time within empathic exertion.

* **Ethics of Compassion Exchange** – The moral framework distinguishing authentic care from transactional empathy.

◆ Supporting Constructs

* **Leakage Pathways Map** – Schematic representation of how compassion moves from individual to systemic depletion.

* **Sacred Attention / Ecology of Presence** – The understanding of attention as a finite and sacred resource.

- * ****Embodied Algorithm**** – The interrelation between human feeling and technological mediation.
- * ****ParentingCore Connect**** – Applied framework for compassion preservation in family systems.
- * ****Compassion Threshold**** – The individual's sustainable limit of empathic output.
- * ****Moral Physics**** – Exploration of the ethical laws governing emotional exchange and balance.
- * ****Compassion Recovery Orbit**** – A visual metaphor representing the cyclical renewal of compassion balance.
- * ****Compassion Ecosystem**** – An integrated environment of emotional, social, and institutional interactions sustaining care.

****◆ Slogans, Taglines, and Signature Phrases****

- * "Only the wise protect their compassion — the rest mistake depletion for devotion."
- * "Protect your compassion — avoid leakage now."
- * "The hidden economics of the human heart."
- * "Emotional sustainability is the new intelligence."
- * "Where does compassion go when we run out?"
- * "To heal the world, we must first stop the leak."
- * "Not burnout. Not fatigue. Leakage."
- * "Replenish before you deplete."
- * "Guard your compassion as a sacred resource."
- * "A Better Response"

◆ Attribution & Copyright Statement**
